

Intern for Compliance, Strategy & Transaction (CST)

(Phileo Damansara II, Petaling Jaya, Selangor – Malaysia)

Company Description

Inviting bright minds

Do you want to push the boundaries of your profession and develop your excellence in an open, collaborative and empowering culture? We work to create a sustainable future and our inspiring projects and innovative solutions aim to set the standard among our peers. You will join a global company that has been growing successfully since its founding in 1945. Together, we lead and leave a positive impact on societies, companies and people around the world.

Job Description

You will join our CST department.

What will you do?

Support our Compliance Strategy and Transactions (CST) project teams, by assisting with ongoing projects.

- Assist in consulting services comprising due diligence, compliance auditing, permitting support, management systems and strategic advice.
- Assist seniors in the preparation of proposals and reports including data analyses.
- Support business development by engaging in research on market trends, sectors, emerging topics.
- Prepare business development materials, draft articles, and research topics of relevance to our clients.
- Participate in general department activities such as skills sharing, online training, team meetings, etc.
- Any other ad-hoc tasks if and when necessary, such as the preparation of reports and presentations for project delivery.

Job Requirements:

- Excellent analytical and communication skills, with an aptitude for data handling and clear reporting.
- Eagerness to take on challenges and contribute to meaningful projects
- Good grasp of Microsoft Office applications, such as Microsoft Word, Excel, Point, Teams and Loop.
- In addition to skills above, having proficiency in other skills such as Geographic Information System (GIS), Adobe Illustrator, InDesign etc. is considered a plus.
- Fluency in key languages mainly English and Bahasa Malaysia. Knowledge of other Asian languages e.g., Mandarin, Bahasa Indonesia, Thai etc. is an advantage.
- Pursuing or recently completed a relevant science discipline (environmental science, geology, chemistry, physics, toxicology or biology) or relevant engineering discipline (civil, environmental, chemical).

Qualifications

Your starting point for constant growth

From the moment you join Ramboll, we will support your personal and professional development so that you grow with the company. For this role, we believe your starting point is:

- Currently pursuing a Bachelor's Degree
- Confident to work independently and comfortable to work with others
- Good learning attitude

ADDITIONAL INFORMATION

Welcome to our Environment & Health division

Ramboll develops innovative, scientifically sound solutions that help increase liveability by reducing pollution and restoring natural environments. One of the world's leading environmental and health consultancies, our bright minds are trusted by clients to manage their most challenging environmental, health and social issues.

This opportunity is to work in a leading international consultancy on a range of interesting projects both in Asia and internationally, in an inclusive, diverse and high-performing environment. Our Compliance Strategy and Transaction team operates on a global level where we work closely with our colleagues in Australia, Europe, the Nordics and the Americas. We work on global projects and are a truly global team through sharing information and knowledge.

About RAMBOLL In Asia Pacific

In Asia Pacific, Ramboll brings integrated expertise and experience in the built and natural environments to drive sustainable change.

Our strategy is to help clients and communities realize their goals and aspirations of a flourishing sustainable future through four unifying themes: decarbonization for net zero, resilient societies & liveability, resource management & circular economy, and biodiversity & ecosystem.

Ramboll's diverse team draws upon our Nordic heritage and an extensive project portfolio to bring systems thinking and integrated solutions with people and sustainability at our core. As a foundation-owned business, Ramboll puts passion and the common good of our people and business first, thus ensuring the long-term and independent development of the company, its employees and the communities we serve.

The Compliance Strategy and Transactions team that you would join operates throughout Asia and we work closely with our CST colleagues in Australia, China and India as well as the rest of the world.
