Menilai peranan tindakan iklim dalam mengurangkan kesan perubahan iklim 2. Mempraktikkan amalan tindakan iklim 3. Membujuk orang lain agar mempraktikkan amalan tindakan iklim | <p><i>At the end of the course, students are able to:</i></p> <ol style="list-style-type: none"> 1. <i>Assess the role of climate action in mitigating impacts of climate change</i> 2. <i>Practice climate action habits</i> 3. <i>Persuade others to practice climate action habits.</i> |
| <p>Sinopsis Kandungan Kursus <i>Synopsis of Course Contents</i></p> | <p>Kursus ini berhasrat memberi inspirasi kepada pelajar agar mengambil langkah tindakan positif demi iklim, iaitu <i>climate action</i> bagi mengekang perubahan iklim dan pemanasan global. Kursus ini memperkenalkan pelajar kepada asas-asas sains perubahan iklim serta tadbir-urus perubahan iklim di peringkat lokal dan global (Bahagian 1, Minggu 1-2). Melalui fokus kepada lima sektor pelepasan gas rumah hijau yang kritikal bagi Malaysia (elektrik, pengangkutan, makanan, hutan, dan sampah) kursus ini membincangkan kesan tindakan manusia ke atas perubahan iklim. Lebih penting lagi, kursus ini mengenalpasti amalan dan tindakan yang boleh dipraktikkan oleh individu secara peribadi bagi mengurangkan impak masing-masing ke atas perubahan iklim (Bahagian 2, Minggu 3-12). Kursus ini juga memperincikan beberapa kaedah bagi mendorong orang lain agar bertindak demi iklim (Bahagian 3, Minggu 13-14). Kursus ini berkisarkan konteks perubahan iklim tempatan Malaysia, namun ianya juga relevan bagi <i>climate action</i> di negara lain serta di peringkat global.</p> | <p>This course aims to inspire climate action to help mitigate climate change and global warming. The course introduces students to the basics of climate change science. It also covers climate change governance at local and global levels (Part 1, Week 1-2). Through a focus on five critical greenhouse emission sectors for Malaysia (electricity, transport, food, forests, and trash) the course discusses how human actions affect climate change. More importantly, the course identifies actions that individuals can take on a personal level to reduce their impact on these areas. (Part 2, Week 3-12). The course also details techniques to encourage others to undertake positive climate actions (Part 3, Week 13-14). Although the course draws upon the local Malaysian context of climate change, the course is also relevant for climate action both in other countries and globally.</p> |
